

## Representative of the Republic of Tatarstan at the Investment Congress in Munich 2019

Head of the Investment Development Agency of the Republic of Tatarstan @investtatarstan Minullina Taliya Ilgizovna spoke at the Congress and highlighted the most pressing topics of the region:

“Basically, of course, the basis of our gross domestic product economy today is oil production, petrochemicals.

At the same time, we are not saying that we are now completely dependent on this sector, Tatarstan today seriously supplies the Russian economy of this industry in many areas. ”

First of all, potential investors are those who buy raw materials from our energy chemical enterprises, ”said Taliya Ilgizovna

Therefore, the investment development agency works closely with the oil industry to develop and attract foreign investment.

“With the help of foreign and Russian international mass media, we, of course, are positioning Tatarstan as an international entry point to the market of Russia and the CIS countries. This is a key moment for us! ”

“The success of Tatarstan is a large team of Tatarstan, which works never stopping and the Agency @investtatarstan, of course, today is part of this team. I thank my employees for the results and all those without whom the investment process would not work today ”
